

Swati Pandey

Graduate / Junior Software Developer — Java, Python & Backend

Sydney, NSW • +61 494 435 224 • swati60513@gmail.com • linkedin.com/in/swati-pandey-803a74211

Full working rights in Australia • Available to start immediately

PROFESSIONAL SUMMARY

Computer science graduate (M.Sc.) and developer with a strong foundation in Java, Python, data structures, algorithms, and SQL. Hands-on experience building machine-learning and backend-oriented projects, including a first-author Springer publication. Strengthened these fundamentals through 2+ years teaching and mentoring undergraduate programming and DSA. Seeking a graduate or junior software developer role in Sydney to build reliable software and keep growing as an engineer.

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS

Backend: REST API fundamentals, MVC architecture, relational databases

ML & NLP: Scikit-learn, TensorFlow/Keras, TF-IDF, NLP

Web: HTML, CSS

Tools: Git, VS Code, Jupyter Notebook

PROJECTS

Fake News Detection System | Published — Springer

Python, Scikit-learn, NLP

- Built an end-to-end ML pipeline to classify real vs. fake news articles across two datasets.
- Implemented and compared six classifiers: Logistic Regression, Naive Bayes, SVM, Random Forest, KNN, and Passive-Aggressive.
- Engineered features with TF-IDF and Bag-of-Words and tuned hyperparameters, reaching up to 99.47% accuracy with the SVM model.
- Published as first author in Springer conference proceedings.

Speech Emotion Recognition | Team Project

Python, TensorFlow/Keras, NLP

- Developed a deep-learning model to classify emotion from speech.
- Built feature-extraction and preprocessing steps; contributed to training, testing, and performance tuning.

EXPERIENCE

Python Developer Intern | UpSkill Campus

Jun 2023 – Aug 2023

- Built an automated File Organizer tool in Python using the OS and Shutil modules.
- Implemented dynamic file classification and folder-structuring logic.
- Reduced manual sorting effort through modular, automation-first design.

Assistant Professor, Computer Science | Gov. Madan Lal Shukla PG

Oct 2024 – Feb 2026

- Taught Java, Python, C++, Data Structures, and DBMS to 60+ undergraduate students.
- Mentored 30+ student projects involving backend logic and database integration.
- Led 20+ lab sessions focused on hands-on algorithm implementation.

Lecturer, Computer Science | Mata Shabari Naveen Girls PG College

Aug 2023 – May 2024

- Introduced structured DSA practice that measurably improved student coding proficiency.
- Guided 40+ implementation-focused coding projects; taught OOP and database design.

EDUCATION

M.Sc. Computer Science (83.96%) | Atal Bihari Vajpayee University

2021

B.Sc. Computer Science | Atal Bihari Vajpayee University

2019

PUBLICATION

Pandey, S., Gupta, R., Kumar, J. (2022). "Identification of Fake News Using Machine Learning Techniques." In: Recent Trends in Communication and Intelligent Systems, Algorithms for Intelligent Systems, Springer, Singapore, pp. 225–236. DOI: 10.1007/978-981-19-1324-2_25
